

## ***Cannery Row & Monterey Bay Aquarium Alternate Assignment***

- 1) Complete any late or missing work which prevented your attendance on the trip.
- 2) Work on upcoming assignments...(Science Response, Lit Log, etc)
- 3a) Choose an organism found in the Monterey Bay. Create a brief report OR powerpoint OR poster.

- Include:
- Illustrations/diagrams
  - Where it lives in Monterey Bay (habitat)
  - How it has adapted to survive in that habitat
  - How it reproduces
  - What is it's scientific classification (taxonomy)

### ***OR...***

- 3b) Create a brief report OR powerpoint OR poster about Doc Ricketts

- Include:
- A life graph (Born, schooling, discoveries, high & low points, death, etc)
  - Illustrations/diagrams of Doc, his life & surroundings
  - How did he end up on Cannery Row?
  - Explain his connection to John Steinbeck

Due and ready to present on Monday, April 9 (when we get back from break)
